2. These ration strength figures still included 150 men who had been discharged on 22 October 1954, but were still kept on the ration roll until 15 November. On 4 November, about 500 men who belonged mainly to the 2d and 3d Bns were absent for harvest. 1
3. Reassignments which followed the discharges were concluded prior to 8 November. Three hundred soldiers reassigned from the infantry regiment which was commanded by Muentzer (fnu) went mainly to Oranienburg and Wolfsburg near Gransee. Personnel reassigned to the regiment included 30 NCOs and EM who came from the komendatura on Alexanderplatz in Berlin, and about 60 officers who came from the Oranienburg, Treptow and Erfurt officer schools. Only 20 officers stayed with the regiment, while the other 40 officers were reassigned to units which were stationed at Pinnow and Torgelow. 1 and 2
4. From 4 to 11 November, a training course for company leaders was held in Torgelow under the direction of Major Itzekiel (fnu) from the division headquarters. 3
5. Regular service activity was not resumed after the discharges. The new training year was scheduled to begin on 1 December 1954.
6. In late October, 15 men were dispatched to the Berlin area in an effort to recruit volunteers for the KVP. Nationalized plants and administrative agencies were mainly subjected to the recruiting campaign, termination of which was scheduled for late November 1954. 4

7. [redacted] the general status of [redacted] training shown by the troops [redacted] was "hardly satisfactory" in a political and a military [redacted]

1. [redacted] Comment. If the statements cover all changes of personnel, the number of inductees exceeds the number of discharges by about 50. Considering reassignments, the arithmetic result is computed at a reduction of the regimental strength by about 150 men. It is believed that, in fact, the actual strength exceeds the ration strength figures indicated in running reports which are subject to short-term fluctuations. [redacted]
